

Back-end Engineer

PNO is the Nordic's largest trailer rental company. We are a family-owned company established in 1975 with our head office in Copenhagen and branches in Germany, Finland, Norway, Sweden, Denmark, Holland, and Poland.

Our purpose is to lead the transition to sustainable freight, and we strongly believe that PNO can be a key driver of change in the logistics industry. We are growing rapidly, entering 1-2 new markets a year and taking more market share in existing countries. Overall, PNO expects to grow 20% each year towards 2027.

About the job

We are looking for a talented new colleague to join our development team in Copenhagen to take part in our journey to expand our digital landscape. Our current team is cross-functional and we all have strong areas of expertise. We are a somewhat small unpretentious self-organizing team working in an agile setting together with our Product Manager.

Our technology stack

- Event sourcing and a micro service architecture is the foundation for our digital platform(s)
- NATS Streaming is powering the event streams
- Services are primarily built with Go
- GitHub, Drone and CI/CD makes sure every commit is deployable
- Everything is deployed using Docker/containers on AWS
- Front-ends are built using Vuejs (JavaScript + TypeScript) that communicate with back-end through JSON APIs

Skills

- You have knowledge about (and preferably having sound experience in) the technologies we use
- We appreciate and expect a pragmatic, open, and friendly approach to teamwork
- We do not expect you to be equally strong in everything but we do expect you to know your own strengths and also in which areas you aspire to grow
- We expect that you also bring your honest self to work every day and you are opinionated by experience, listen to qualified arguments and be pragmatic about finding solutions
- Being a certified B Corp is something that underpins many decisions in PNO, and if social and environmental impact is important to you, then you will fit right in!

Benefits

- Competitive salary and meaningful work
- Company healthcare insurance and pension plan
- Flexible working hours and vacation policy
- Your choice in hardware, whatever equipment helps you get the job done

The interview process

1. An informal chat with the Head of Product
2. Interview with our Head of People, Communication and Sustainability
3. DISC personality assessment test
4. Technical case interview with Engineering Manager
5. An informal chat with PNO CEO and Chief of Staff

How to apply

Send your CV to Jonas Vang, Head of Product, at jonas@pnorental.com.

PNO is committed to providing employees with a work environment free of discrimination. We are committed to working with people of every race, color, age, religion, sex, sexual orientation, gender identity/expression, national origin, and status as an individual with disability.
